IV. Reports:

- **Principal's Report**
  - PS 84 looks at the city and district vision as well as needs assessments based on screener data and state test scores.
  - PS84's vision for this year is to ensure that we improve teaching practices so that we deepen student-centered learning practices, while simultaneously learning how to take student data and use it to promote equity and access to learning (demographically).
  - We will deepen student-centered learning practices via professional development in math shifts with a focus on discourse.
  - As an IB candidate school, we are aiming to strengthen the student voice and choice in what students learn.
  - We are using student data to promote equity and access.
  - Align the science of reading to other content areas such as mathematics.
  - For students who have scored 40% and below for proficiency, there are RTI periods built into teachers' schedules, using programs such as SPIRE, REWARDS and Reading Recovery. These are research-based programs to help students with fluency. Students who have achieved proficiency are extending their learning.
  - Instructional math shifts are also being put into place. Focus on sensemaking, accountable talk, low-floor, high-ceiling exercises. Teachers are working with someone from the district.
- **PTA Report**
  - Starting our Family Giving campaign. Families are explaining what we are funding and what the funds will go to, from now until the holidays.
